

Operating System

- PC** Windows 7 or higher. (Some distributions of Linux which support Flash 11+ have been successful, but it is not officially supported.)
- MAC** Apple Mac OS X 10.10 or higher (Some distributions of Linux which support Flash 11+ have been successful, but it is not officially supported.)
- Mobile** iOS (newest), Android (newest), and Blackberry 6 are all supported within the main Illinois Virtual School website. However, some linked content may not support mobile devices. IVS recommends all mobile device users have access to a computer as well. Note: A Flash enabled browser, such as Photon, Puffin, or Skyfire, will be needed.

Hardware

- 2.33GHz AMD -or- Intel® Core™ Duo 1.83 GHz (PC)
 Intel Core Duo 1.33 GHz (MAC)
 1024 MB of RAM or higher
 Speakers or Headphones
 Microphone
 1024 x 768 or greater display resolution
 Document Imaging Option*
- **Some courses may require students to scan/fax/image handwritten assignments to send to their instructor*

Internet Access

- 256 kbps per concurrent user **
 460 kbps per concurrent user for world language courses**
***A slow Internet connection will affect the performance of multimedia elements found in IVS courses*

Plug-Ins, Additional Software and Settings

- Recent Versions of: Adobe Acrobat Reader, Flash Player***, Windows Media Player, Quicktime, Word Processing Software, Sun Java (PC), Java for MAC (MAC)
 Javascript: Enabled
